

## Street Cranexpress Newsletter

---

We're thrilled to bring you the latest updates as we continue to innovate and lead in the overhead crane industry.

This month, we have several exciting developments that we're eager to share:

- 1. Hoist Replacement Upgrade:** We've recently completed a major hoist replacement on an overhead crane. This upgrade ensures enhanced safety and efficiency, reinforcing our commitment to excellence in performance and reliability.
  - 2. Renewal of a Long-Standing Customer Contract:** We're proud to announce the renewal of our contract with one of our long-standing customers. This continued partnership reflects the trust and satisfaction our clients have in our expertise and services.
  - 3. Global Partnership Announcement:** We're thrilled to announce a new collaboration with a leading international company. This partnership expands our product offerings and enhances our ability to deliver innovative solutions to our clients.
  - 4. Our Group's Unique Structure:** Our group comprises two separate companies working together under one umbrella.
- 

### Street Cranexpress Elevates Talurit's Production

## Street Cranexpress & Villari

**Street  
Cranexpress.**

Street Cranexpress are partnering with the well established international company Villari to launch a brand new solution that will help reduce downtime significantly.

The solution is new to the UK but already installed with several users in Europe, safeguarding multiple assets.

So what does it do?

## The SCE Group Explained

You may have seen from previous emails or on our social media profiles the above logo. SCE is the umbrella company under which two businesses sit.

The two companies are Street Cranexpress & bxh.

Street Cranexpress are experts in overhead crane maintenance and modernisation.

Bxh are an electrical wholesaler selling components from various companies such as:

- Schneider Electric
- Finder
- IMO
- WAGO
- And many more...
