

Street Cranexpress.

NEWSLETTER

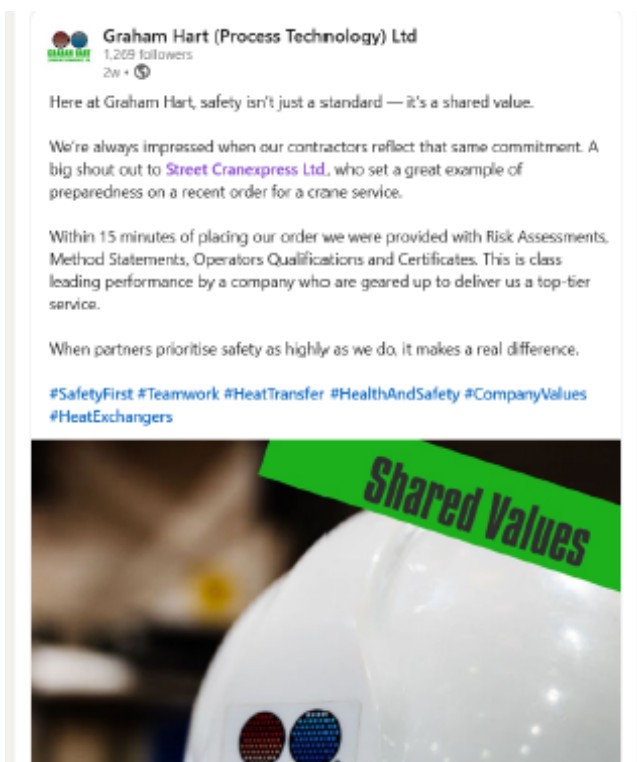

June - August 2025

We've had a busy summer here at Street Cranexpress. From repairs and bespoke installation projects a stones throw away from our Sheffield HQ, through to the introduction of a new safety system – Halo Lights, and celebrating not one but two accreditations.

But first...

Something positive

We love getting positive feedback, especially when it relates to our team. Here's some we received from a client of ours, Graham Hart Ltd, who gave us a glowing review in a LinkedIn post.

Street Cranexpress shines a (halo) light on safety...

At Street Cranexpress, safe operation is our top priority. That's why we're proud to highlight Halo Lights — a proven safety enhancement designed to keep your workspace secure and your workforce alert.

What are Halo Lights?

Halo Lights create highly visible safety zones on the floor beneath cranes or hooks. Our Projector type emits a bright circular image which is customisable to suit your operations. Our Laser type projects straight lines for a clear, box-like area to ensure everyone on-site knows exactly where crane movement is taking place — reducing the risk of accidents and improving overall awareness.

Learn more about Halo Lights and how they work, here:

Another installation done and dusted!

We recently had the opportunity to install two 3.2t double girder cranes and a 2t single girder crane at a brand-new site in a city we know and love – Sheffield! Click the link to read all about it:

Street Cranexpress recognised with JOSCAR and SafeContractor accreditations

At Street Cranexpress, quality and safety are at the heart of everything we do. The work our engineers carry out requires precision, expertise, and the highest levels of care; these values are deeply embedded across every department in our company.

This year, we're proud to share our efforts have once again been recognised through two important industry accreditations: JOSCAR and SafeContractor:
