Street Cranexpress.

Introduction

Welcome to the latest edition of the Street Cranexpress newsletter. Over the past three months, our team has been busy breathing new life into legacy cranes, celebrating promotions and apprenticeship successes, and taking on a mountain-sized charity challenge.

Here's a round-up of what's been happening.

Breathing new life into legacy cranes

Our projects team, aided by a talented group of engineers, have been working hard on various projects throughout a blisteringly hot summer.

There two projects in particular they are most proud of - both of which involved the team revitalising legacy crane systems, one of which was manually operated. Faced with a myriad of challenges including tight access points and a lack of original drawings to work from, the team put their knowledge to the test with end results that provide our customer with up-to-date lifting equipment fit for the future.

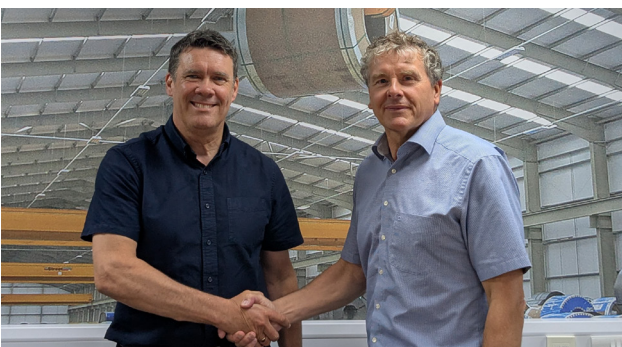

You can read all about it in our latest two case studies.

Congratulations to Ray and James

We're pleased to announce two senior appointments within the group.

Ray Fletcher has moved from Managing Director to Deputy Chairman of the SCE Group, and James Eastwood has stepped up from Operations Director to Managing Director of Street Cranexpress. We caught up with Ray and James to find out more about their career journeys and what the future holds.

Newly qualified Street Cranexpress apprentices

We're delighted to announce that Lex, Zak and Kobi have successfully completed their apprenticeships. After four years of learning their trades and putting their skills into practice, all three are taking the next step in their engineering careers.

Qualifications gained:

Lex: Maintenance & Operations Engineering

Zak: Mechatronics Level 3

Kobi: L2 Diploma in Advanced Manufacturing Engineering

A big thank you to the engineers who have supported our apprentices throughout. The knowledge they pass on is invaluable.

"I'm very proud of all three of the lads. They've all had to overcome some significant challenges over the last four years to get to this point. Now the real learning begins as they start their new role as qualified overhead crane engineers. With the support network at Street Cranexpress, they'll be more than OK." **Josh Clegg, Engineering Director (Designate)**

Huge congratulations to Lex, Zak and Kobi from everyone at SCE.

Smashed it! Nine team members took on the National 3 Peaks Challenge

Nine members of the Street Cranexpress team climbed to new heights as they recently took on the National Three Peaks Challenge in aid of Prostate Cancer UK.

Battling torrential rain and wind gusts of up to 70 mph, they scaled Snowdon, Ben Nevis and Scafell Pike, and were rewarded with spectacular views from each summit. Well done to everyone involved and thank you to all who donated.

Other news from across the SCE Group

There's more to find at bxh online.

More industry-leading brands are now available at bxh.co.uk, adding even more choice to our growing online catalogue.

WAGO:

Terminal blocks, connectors and automation products for efficient panel building and industrial applications.

Socomec:

Power control, switching and energy management solutions to improve electrical system reliability, efficiency and performance.

Telemecanique: A wide range of sensor products.

Craig & Derricott: Switch disconnectors, rotary switches, control components and more.

Finder: Relays, timers and interface modules.

That's over 25,000 additional lines on top of the 40,000+ Schneider Electric products already on our website, so even more top-quality products are ready to order for your next project.

More brands. More products. More choice.
